

Coin collection record

Print one record per item. Assign an ID to the holder and photographs, never to the coin. Record observed facts separately from seller claims. Use YYYY-MM-DD for dates, and specify the currency for every cost. Keep receipts and original photographs with the record.

Hypothetical example: C-001; United States quarter; Virginia, 2000, P; found in change; visible wear and a small rim mark; album slot VA. Grade and market value remain unassigned.

Item ID / record date	
Country / denomination	
Issue / design / coin date	
Mint mark / finish / variety	
Observed condition	
Professional grade / service, if any	
Acquired from / acquisition date	
Cost / currency / additional fees	
Packaging / certificate reference	
Photo and receipt filenames	
Storage location	
Unverified claims / next check
